▶ Microsoft CRM 4.0

Microsoft Dynamics CRM 4.0 is a powerful, easy to implement Customer Relationship Management solution. It tightly integrates to Microsoft Outlook yet provides a range of deployment options for maximum flexibility. The tight integration with Microsoft Outlook translates into significant benefits versus other CRM solutions including:

- Lower training costs
- Broader user adoption
- Less application-switching
- Higher productivity
- A faster ROI

Users access the system through Microsoft Outlook or through their web browser using the CRM web interface.

Microsoft CRM 4.0 provides a choice between on demand and on-premise deployment. Your organization can initially deploy with Project Hosts and then move your system on-premise when your IT department is ready to support the application or simply contract for on demand services with Project Hosts long-term. We offer low, month-to-month pricing for dedicated server hosting that makes on demand Microsoft Dynamics CRM 4.0 affordable and flexible.

Not sure if Microsoft Dynamics 4.0 is right for your organization? Try one of our online Microsoft CRM tours, use a Proof of Concept Trial to test the solution in your organization, or talk to us now to define your rollout plan and start using on demand Microsoft CRM 4.0 right away!

▶ On Demand CRM 4.0 Advantages

Customer Advantages	Microsoft CRM Partner Advantages
Implementing on demand Microsoft CRM 4.0 allows your company to immediately realize all of the benefits without incurring the significant time and ongoing IT investment required for an onsite deployment	Partners can integrate and provide their custom Microsoft Dynamics CRM 4.0 solutions and consultancy services as part of an on demand Customer Relationship Management solution
Highly secure, web-based environment	Custom branding allows partners to present their look and feel to potential customers
Month-by-month or longer-term contracts provide maximum flexibility	Continue to provide consulting, configuration, support and training
Rent or purchase software licenses to match your budget	Include your organization's own CRM add-on software solutions
Scale the number of system users quickly and easily with one phone call	Reduces time to implement CRM 4.0

▶ Pricing

Our low, month-to-month pricing makes on demand Microsoft Dynamics CRM 4.0 an affordable, flexible choice. Longer-term contracts provide greater savings. All deployments are on dedicated CRM 4.0 servers with a 20 user minimum.

Month-to-month pricing with a shared SQL server is:

Users	Monthly Cost per User with All Licenses*	Monthly Cost per User without Client Licenses*
20	\$79	\$59
50	\$69	\$49
100	\$59	\$39
250	\$49	\$29
500	\$39	\$19
1,000	\$34	\$14

*A \$1,000 setup fee applies. Typical deployment time is 1 week ARO. Dedicated SQL server deployments are available.
